## COVER PICTURE

COVER PICTURE—It has taken these five men, and many, many more, to make the VFW community ambulance increasingly successful for 23 years. J. Peter Bourque (middle of the group behind the ambulance) is Commander of the post now, and all four of the others are past Commanders. John A. Crawford (at right in front) was Commander the year the service was established. Alphe Lamothe (at left in front) was the original dispatcher. Orin Letourneau (at right behind the ambulance) has played a major role in the annual Penny Sale down through the years. Edward Sasner (at left behind the ambulance) is VFW Department Inspector. For more about the ambulance service, see page 128.

# *REPORT Of The SELECTMEN*

The election of Selectman Homer J. Forcier as Representative to the General Court of the State required his presence in the Capital three days each week. Our weekly meeting has been shifted to Monday afternoon at 2:00 p.m. which has seemed to be convenient to him and to the voters as well.

Progress has continued on projects started in 1969. A bond issue was sold with an interest rate of 5.7 per cent, and a contract awarded for the main sewer from Sawtelle Road connection to the Center, along Main and Prospect Streets, cross country to North Street Pumping Station, and major excavation and clearing accomplished for the sewage lagoon. Most of this work is financed by State and Federal funds in installments.

Sewer lines called laterals were installed by the town using sewer rentals and $50,000. borrowed as authorized by the town. These included Highland Avenue, Mark, Street, Caron Lane, Burrington Court and Meetinghouse Road in the Center. An unusually heavy maintenance job on the old sewer system was required on Peterborough Street where an increase in pipe size and a relocation much in rock excavation was required.

The Water Department completed laying a new 12 inch line from the Jason C. Sawyer farm, where a six inch line from town stopped, to the Prescott Road line from Bullett Pond. This gives satisfactory pressure along Turnpike Road, and improves the downtown water pressure when needed for fire protection.

The summer recreation program at Lake Contoocook and Humiston Field was continued, under the direction of Alan Cochran, Myrna Howard, Connie Stratton, Jane Sawyer and Janet Duval, whose efforts are much appreciated.

The Jaffrey Center Historic District has been established.

The Selectmen take this opportunity to thank all of its citizens who support by their efforts or contributions or low-paid labor such activities as the management of Shattuck Park, the ski-tow at Fitzgerald Hill, the skating rink at Humiston Park, the Town clocks and volunteer fire department members, and others.

# *REPORT OF THE JAFFREY PLANNING BOARD*

for the year ending Dec. 31, 1970

In order to provide a more specific understanding of the regulations governing Mobile Home Parks, as passed in 1968, the Board wrote a new set of regulations. These new regulations specify that mobile homes shall be located in mobile home parks, and promulgates the requirements for a mobile home park. Following two public hearings the new regulations were voted on by ballot at the November Election Day and were approved by the voters establishing them as the New Mobile Home and Mobile Home Park Ordinance. Copies of the new ordinance are on file at the Town Office.

**B. Leonard Krause
Joseph J. Crocker
Edward J. Shea
*Francis X. Quinlan
H. Charles Royce

*Appointed to fill the vacancy created by Peter B. Davis' resignation.

**Elected chairman to replace Peter B. Davis.

# *REPORT OF THE JAFFREY HISTORY COMMITTEE*

PROGRESS REPORT

The Jaffrey History Committee has had a busy year. The compilation of the history is now complete, and the material is in the hands of the printers.

The Committee contacted several printers in the area, and the lowest price received was from the Transcript Printing Company and the company was awarded the contract for the publication of Volume III.

During the past year the Committee held many meetings to review the material. Miss Lehtinen has worked diligently and relentlessly on the research of the historical and genealogical material and the Committee feels that she has accomplished much more than was expected of her in this project, and should any family genealogy not be included in this volume, it can in no way be attributed to Miss Lehtinen or any members of her committee, but to a lack of interest on the part of any individual family not included. The Committee feels that sufficient notice was given relative to furnishing the necessary genealogical information to Miss Lehtinen so that it could be included in this volume.

It is expected that the history will be available for delivery sometime after Aug.1 barring any unforeseen incidents.

# *REPORT ON REFUSE DISPOSAL*

After July 1972 or 1975, depending on the size of the town, the state law prohibits the burning of waste in open dumps. The open dumps may be replaced by sanitary land fills, incinerators, or open pit burners.

The waste disposal problem of Jaffrey is somewhat the same as in 1969 except that several projects have been investigated by the Selectmen and the Refuse Disposal Committee to ascertain which one is best suited for the town. We have the above three to choose from before the state steps in, and decides for us.

An incinerator being a costly device, $1,000,000 and up, eliminates itself automatically as we do not have the volume of refuse to feed it, nor do we have the cash to finance it. The two left – the sanitary land fill and the open pit burner -- we have investiagted.

Fortunately the sanitary land fill was close at hand in Peterborough. It is new, less than a year old, on a level tract of land, not far from the old dump. It was manned by a crew of three men – the machine operator, and one or two attendants to direct traffic. The physical appearance of the sanitary land fill was a trench one hundred feet long, ten feet wide, and six deep. This ran the length of the field. Logs were placed along the length of the trench to prevent cars and trucks from rolling into the trench. Refuse from the cars and trucks was thrown into the trench, and a rubber tired front loader periodically ran over the refuse to compact it. At the end of the day the front end loader dug gravel, and spread it over the day's collection of compacted refuse. No smoke. No fires. No insect breeding. No odors. No trash or refuse to walk over. No rats, and above all it was clean. The rubber tired front end loader was borrowed from the Town of Peterborough until the arrival of the new one.

The open pit burner at Conway was also visited by the Selectmen, Refuse Disposal Committee, the Monadnock Regional Executive Secretary, and a host of other people. It was "Open House,"and Conway put its best foot forward to show off the much hearlded open pit burner for which we have been waiting for over a year to inspect.

It is a modest steel building for housing machinery to operate the pit burner, and a shelter for the personnel and visiting dump trucks. On the left hand side of the building is a sheltered drive-up to an open concrete bin where housewives may deposit their refuse. it is very clean and tidy with no sign of refuse, incineration, or waste disposal. The actual burner itself is at the back, and to one side of the main building, connected by a roofed in passage. The pit is fourteen feet long, eight feet wide, and nine feet deep, and is of concrete construction. It is lined with high temperature fire brick. Around the pit is a series of nozzles where huge quantities of air are directed in a swirling motion at the fire. This air is supplied by a forty horse power blower outside the building. Over the pit is a coarse heavy wire screen to catch flying paper, fly ash, or refuse.

The refuse is picked up by a front end loader (using propane bottled gas as a fuel) on the mixing floor, and pushed or dumped into the burner. Surprisingly the refuse was consumed in a very short time with no fly ash or smoke visible. The intense heat (1800oF) of the burning refuse and air reduces the refuse to about one tenth of the volume fed into it. The refuse is composed of branches, bottles, tin cans, paper, rags, green garbage, and the run of the mill garbage. Large pieces of metal are fished out, and put aside to be buried later. After the refuse is incinerated the residue, or clinker, composed of melted glass, tin cans, and uncombustible material is cooled, broken up, and removed by a special rig thrust into the pit. The refuse is entirely sterilized and ready to be disposed of.

Six or seven towns use the facilities of this burner, or a population of from eleven to twenty thousand people. It all depends on the time of the year. Being an experimental burner the exact capacity is not known, but it is hoped that a few more towns will be able to use the burner. The initial cost is around $50,000. This includes land, buildings, burner, research, design, blower, donations, equipment etc.

The refuse put into the burner governs the output of gases, smoke, and vapors. Over the top of the burner the gases look like heat waves but could be CO2, chlorine, sulphur dioxide, or other gases. Elimination of refuse causing this trouble is being studied, and the refuse is discarded elsewhere.

The University of New Hampshire engineering students are responsible for this find professional project which include: the research, design, drawing the plans, chemical analysis, testing, and building this open pit burner. It will be something to be proud of when completed.

The wigwam burner of Portsmouth was also looked into, but it is just as obnoxious as the open faced dump – belching smoke and odors over the landscape.

Investigation of the types of machinery used for waste disposal was also made. The majority of the machines were steel treaded front end loaders. The steel treaded crawlers, as these machines are called, are a tough breed of machines with lots of push behind the steel treads, and no punctures, or rubber to be chewed off tires by broken glass, or sharp pieces of metal, etc. The treads are wide and long, giving the maximum compacting power necessary for breaking up and compacting refuse. This universal machine is a jack-of-all trades. It bulldozes, scrapes, digs, loads trucks, spreads earth cover, plows snow, digs trenches, lifts logs, stoves, refrigerators, and many other dump problems. These machines can be fitted with back hoes, cranes, cabs, rippers, and a variety of other accessories The price range is from $16,000 to $30,000 depending on what the machine is used for. Lighter machines may be purchased at a lower price. They can be had in diesel or gas powered engine units. In addition trucks may be borrowed from the town to help out from time to time.

To solve the waste disposal problem of Jaffrey either the sanitary land fill, or the open pit burner would be a great improvement over the present open faced dump we now have. Either one would eliminate the burning bonfires that face us as we throw refuse over the bank. The sanitary land fill, if properly conducted, is an ideal way for a small town to dispose of its refuse. It will cost the town more than we are now paying, but sooner or later something will have to be done. The open pit burner, in its infancy, just in the experimental stage, has great promise. The present cost of $50,000 includes many items that this town already has. Consolidation of a few town dumps into one project would still lower the cost. When this project is finally tested, working drawings prepared, specifications worked up, and improvements made, the working drawings and specifications will be made available to any community wishing to build this type of unit. Until then we are left with just one possibility – the sanitary land fill. This means purchasing a proper machine to work the sanitary land fill. If and when the open pit burner is successful we will have the land, and the machinery, and will be able to obtain the information to build one. Appropriations should be made available so that when the day comes money will be on hand for either project.

# *A JAFFREY TRADITION*

The Community Ambulance Service, made available free to the people of Jaffrey and Rindge by members of Veterans of Foreign Wars Post No. 5613 at Jaffrey, is truly unique.

The service is in its 23rd year.

Measured in many terms . . . dependability, public support, efficiency . . . the program gets stronger every year.

Other towns have had the benefit of free ambulance services, but in all too many cases the programs have "come and gone" for one reason or another.

It was a desire to contribute to the community a highly necessary service which prompted, in the spring of 1948, some of the men who had founded the post two years earlier to establish the free community service.

Great impetus to the fund raising campaign was given by Town Benefactor Derostus Emory in the form of a $1000 contribution.

The drive was successful, and the proceeds of the initial fund campaign were enough to purchase a second-hand Buick ambulance, which was put into operation at once.

The Buick was followed by a new Chevrolet, then a Ford, and at the present time a Cadillac ambulance purchased last year.

Funds for maintenance and operation are raised by an annual "Penny Sale," the continuing success of which can be traced back to a large group of people . . . to the whole town, in fact. The program itself has succeeded because of the faithfulness of VFW members who staff the service, help operate the ambulance, serve as dispatchers, drivers, assistants, in maintenance, and to the local establishment which cleans the linen free of charge.

Town officials help in every way possible, and citizens contribute time, effort, and money to help provide the service to the town.

The ambulance service is free to people of Jaffrey and Rindge, providing them safe, careful and considerate transportation to any hospital within a 100 miles radius. Drivers and attendants are trained volunteers.

ANNUAL MEETING
SCHOOL DISTRICT OF JAFFREY
March 9, 1970

Meeting called to order at 7:30 p.m., March 9, 1970, in the Ernest J. Pratt Auditorium, Conant High School, Jaffrey, N.H.

Warrant for the Annual Meeting of the Jaffrey School District was read by David R. Sawyer, School District Moderator.

Invocation by Rev. Frank Irvine, Jr.

ARTICLE 1. Mrs. Anne B. Gordon moved, and it was seconded by Dr. Millard, that the salaries of the District Officers for the period March 10, 1970, through such time as the business of the District is concluded be as follows:

| | |
|---|---|
| Chairman of the School Board | |
| Each other Member | |
| Clerk | |
| Auditors | $20.00 each |
| and that the | |
| Moderator be paid | |

Unanimously carried.

ARTICLE 2. Mrs. Marion Mack Johnson moved, and it was seconded by Mrs. Millard, that the reports, as printed, be accepted and placed on file with the Clerk. Unanimously carried.

ARTICLE 3. Mr. Daniel G. Shattuck, Jr., moved, and it was seconded by Mr. George Sirois, that the Auditors chosen at the Annual Town Meeting on March 10, 1970, act as Auditors for the School District of Jaffrey as long as may be necessary to transact the business of the School District for the school year 1969-70. Unanimously carried.

ARTICLE 4. Mr. Ernest J. Pratt moved., and it was seconded by Mrs. Anne B. Gordon, that the School Board be authorized to convey to the Jaffrey-Rindge School District, by Quitclaim Deed, the present Jaffrey Grade School and Conant High School, together with the contents thereof, and all land owned by the District. Discussion. Unanimously carried.

ARTICLE 5. Mr. Ernest J. Pratt moved, and it was seconded by Mrs. Marion Mack Johnson, that the School Board be authorized to direct the Treasurer to pay over to the Treasurer of the Jaffrey-Rindge School District any cash balance in his hands or money due the District as of July 1, 1970, less any outstanding bills or debts; any sum so transferred to be used as a credit against the Jaffrey-Rindge School District assessment to be raised by the pre-existing Jaffrey District to defray its share of the cost of operation of the Jaffrey-Rindge School District, during the first year of operation. Unanimously carried.

Mrs. Anne B. Gordon announced that there would be a budget hearing Wednesday, March 11, 1970, at 7:30 p.m., in the Ernest J. Pratt Auditorium, Conant High School. Budget of the Jaffrey-Rindge School District will be discussed. Hope all and many more will attend, and ask any questions at that time that you may have. Meeting adjourned at 7:48 p.m. Motion made by Dr. Millard and seconded by Mrs. Anne B. Gordon. Unanimously carried.
